Vltavská 13, 252 46 Vrané nad Vltavou

Test reports shall be signed by:

RNDr. Libor Jech CSc	Laboratory Manager
Ing. Jaroslava Minářová	Quality Manager

Tests:

Ordinal number ¹⁾	Test procedure/method name	Test procedure/method identification	Tested object
1	Determination of PCDD/F by the method of combination of gas chromatography and high resolution mass spectrometry (HR GC-MS)	IM – PCDD/F (ČSN EN 1948-1,2,3; EPA1613)	Exposed filters and sorbents for emission and air analysis; surface, underground and waste water; solid waste, sludge, soils, food, biological materials.
2	Determination of PCB by the method of combination of gas chromatography and mass spectrometry (GC – MS)	IM – PCB (EPA 1668)	Exposed filters and sorbents for emission and air analysis; surface, underground and waste water; solid waste, sludge, soils, food, biological materials.
3	Determination of PAH by the method of combination of gas chromatography and mass spectrometry (GC – MS)	IM – PAH (EPA TO-13)	Exposed filters and sorbents for emission and air analysis; surface, underground and waste water; solid waste, sludge and soils.
4	Determination of organochlorine pollutants by the method of combination of gas chromatography and high resolution mass spectrometry (HR GC-MS)	IM- OCP (EPA 8270B)	Biological materials, sludge and soils.
